SET-UP GUIDELINES

Sight-Line Optimization is the goal – submit your plan for approval

LEAVE YOUR SPACE AS YOU FOUND IT – NO TAPE may be used on walls, partitions or floors.

1. The showroom room has **polished concrete floors throughout**, so your space will NOT have carpet, track lighting is provided above your space, and you will have access to electrical. *Bring an extension cord AND a power strip...* in case you are sharing with your neighbor. **NO TAPE** – the polish won’t release the tape and a sticky residue is left.
2. Your space will be marked for location – and partitions are provided as outlined below. **Send in a proposed space plan to Tambra** to make sure you are creating the optimum site lines for yourself and your neighbors.
3. If you want to use your furniture to mark the edge of your space, the backs of the furniture facing into your neighbor’s space must be **clean and finished, and follow the height requirements below**.
4. *Signs may be hung from ceiling at a fee of approx. \$100 per sign. Signs should be double-sided on foam core with grommets in the top corners (do not use banners). Typically signs are about 2’ tall x 4’ wide. Contact Tambra for more info.*

SET UP:

July 25 – 27: 9am – 6pm (unless otherwise arranged)

- Empty Carton/Crate Storage:** Must be palletized or banded. Pallets must be shrink-wrapped and labeled with provided "Empty" Storage labels. *(There are no storage areas within the showroom.)*
Collection of your empty storage items is not an automatic process.
Tenants MUST email WMCLVshipping@imcenters.com to arrange for pickup of your empty storage pallets. Labels are available from your showroom or Floor Manager.
NO Loose items or product samples will be accepted.
 - Empty Storage Rates: Contact Market Logistics
 - Oversized pallets, crates: Fees may apply
- YOU WILL BE RESPONSIBLE FOR TAKING YOUR OWN TRASH OUTSIDE THE SHOWROOM TO HALLWAY BINS. **Bring a trashcan.**
- Brooms and a vacuum are available in the showroom – and you may use it when you are finished setting up, as well as when the show is over. We also have a ladder you may use to adjust the overhead lights above your space.

CENTER BOOTH GUIDELINES Partitions are 6' high in the center – the maximum height for shelves or backdrops is 6' (72").

The backs of these spaces are shared with your neighbor behind you – bear this in mind in your space planning...

- All dividers/partitions/back used along the back of the spaces are 6' high. Backdrops should not be higher than 6'.
- Side dividers are 4' high and will extend 12' from the back partition. The remaining 4' is open on the side.
Nothing taller than 4' should be placed at the aisle edge of your space – that blocks your neighbor's site line.
- Send your space plan outline to Tambra for approval before you finalize your plan.*
- The partitions are made of 1" angle-iron surrounding wood. You can use a series of MAGNETS to attach banners, large "s" hooks, or the removable non-stick tape that does not harm paint. One option: have signs printed on "PSV" removable material – you can position it wherever you want and it leaves no marks on the wall or partition.*
- NO TAPE** is allowed because the paint comes off when the tape is removed...

PERIMETER / SIDE BOOTH GUIDELINES In this section of the room – the back is the showroom wall (sheetrock).

- There will be 4' high partitions on the side extending 6' from the back. The remaining 6' to the aisle is open. Keep your neighbor in mind and **do not place items higher than 4' at the front edge of your space.**
- Signs may be hung on the showroom wall using *push pins or small nails* that don't leave large holes in the wall. **NO TAPE!**
If you leave damage to the walls, you will be billed for the patching and painting before the next exhibitor rents the space.
- The showroom will be staffed beginning Thursday morning, July 25. The show officially begins Sunday July 28th at 9am. Show hours are 9am – 6pm, except on Thursday the show ends at 4pm.
